PREFACE 19

TIMELINE 22

1 INTRODUCTION: THE STUDY OF THE HUMAN PAST 24

Chris Scarre, Durham University

What is Archaeology? 25

Prehistory vs. History 26

The Relevance of World Archaeology 27

The Origins of Archaeology 28

Renaissance Beginnings 28

Advances in the 17th and 18th Centuries 30

Developments in the 19th Century 30

Social Evolution 32

Developments in Methodology and Techniques 33

Archaeology and Human Evolution 34

Explaining Change: Archaeological Theories 36

Cultural Ecology and Agency Theory 36

Mechanisms and Patterns of Change 37

• *Innovation, Diffusion, Emulation, and Migration* 37

• *Linear and Cyclical Patterns* 38

Processual and Postprocessual Archaeology 39

Humans in Long-term Perspective 40

Humans and the Environment 40

Demographic Growth 41

Symbols and Cognition 42

Summary and Conclusions 43

Further Reading and Suggested Websites 43

PART I • THE EVOLUTION OF HUMANITY 6 million to 11,500 years ago 44

2 AFRICAN ORIGINS 46

Nicholas Toth and Kathy Schick, Indiana University

Evolution and Human Origins 47

Models of Evolutionary Change 48

The Human Evolutionary Record 49

The Primate Ancestors of Apes and Humans 49

What is a Primate? 49

Overview of Primate Evolution 50

• *Early Anthropoid Features* 51

• *Old World Monkeys and Apes* 51

Our Ape Ancestry: The Comparative Anatomical and Genetic Evidence 51

• *Anatomical Evidence* 52

● **KEY CONTROVERSY** *Classifying the Primates* 52

• *Genetic Evidence* 53

The Environmental Background 55

● **KEY METHOD** *Reconstructing Paleoenvironments* 55

Climate Change and Early Hominin Evolution 56

The Rise of the Earliest Hominins 57

The Australopithecines 57

The Emergence of Homo 58

● **KEY SITES** *Hadar and Laetoli: “Lucy,” the “First Family,” and Fossil Footsteps* 59

The First Stone Tools and the Oldowan 61

Technology 61

Who Made the Oldowan Tools? 66

● **KEY SITE** *Olduvai Gorge: The Grand Canyon of Prehistory* 67

● **KEY CONTROVERSY** *Modern Apes as Oldowan Tool-makers?* 69

The Nature of the Sites 69

● **KEY DISCOVERY** *Surprise! Australopithecus garhi:*

The First Tool-maker? 70

● **KEY SITES** *Regional Overview of Major Oldowan Sites* 71

● **KEY METHOD** *Dating Early Hominins and their Archaeology* 74

Food Procurement and Diet 74

Hunters or Scavengers? 74

● **KEY DISCOVERY** *What were Oldowan Tools Used For?* 76

Food for Thought: Diet and Encephalization 77

The Behavior of Oldowan Hominins 78

Social Organization 78

Diet 78

Technology 78

Fire 79

Site Modification 79

Art, Ritual, and Language 79

Recent Trends in Approaches to the Oldowan 80

Experiments in Site Formation Processes 81

Isotopic Studies 81

Landscape Archaeology 82

Summary and Conclusions 82

Further Reading and Suggested Websites 83

3 HOMININ DISPERSALS IN THE OLD WORLD 84

Richard Klein, Stanford University

Homo ergaster 85

Anatomy 85

- *The Turkana Boy* 86
- *Human Evolution and the Inferences from the Turkana Boy* 88

● **KEY DISCOVERY** *The Discovery of the Turkana Boy* 89
The Relationship of Homo ergaster to Other Hominins 92

The Acheulean 93

The Acheulean Hand Axe Tradition 93

● **KEY DISCOVERY** *The Acheulean Hand Axe Tradition* 94
Hand Axe Function 95
Variation within the Acheulean Tradition 95

Homo erectus 96

The Discovery and Dating of Homo erectus in Java 96

● **KEY CONTROVERSY** *The Dating of Javan Homo erectus* 98
The Discovery and Dating of Homo erectus in China 98
The Archaeology of Chinese Homo erectus 100

The Dispersion of Homo ergaster and the Fate of Homo erectus 101

The Initial Expansion of Homo ergaster from Africa 101

● **KEY CONTROVERSY** *Did Homo ergaster Disperse Partly by Boat?* 102
The Expansion of Homo ergaster to Eurasia: The Dmanisi Discoveries 102

- *Dating the Dmanisi Fossils* 102
- *Evidence that Homo ergaster Persisted to 1 Million Years Ago or Later* 104

The Persistence of Homo erectus in Java 105

Homo heidelbergensis and the Earliest Occupation of Europe 106

● **KEY METHOD** *Electron Spin Resonance (ESR) Dating* 107

● **KEY SITE** *The Gran Dolina TD6 and the History of Cannibalism* 108
Brain Expansion and Change within the Hand Axe Tradition 110

The European Origin of the Neanderthals 110

● **KEY CONTROVERSY** *How did Human Fossils Reach the Sima de los Huesos?* 111

Evidence for Early Human Behavior apart from Stone Artifacts 112

Raw Materials besides Stone 112

● **KEY METHOD** *Uranium-Series Dating* 113
Site Modification 114

Fire 115

Art 117

Diet and Food Procurement 118

- *Plant Foods: Foraging* 118

● **KEY METHOD** *Luminescence Dating* 119

- *Animal Foods: Hunting and Scavenging* 120

Summary and Conclusions 121

● **KEY CONTROVERSY** *Acheulean Big-Game Hunters?* 122

Further Reading and Suggested Websites 123

4 THE RISE OF MODERN HUMANS 124

Paul Pettitt, University of Sheffield

The Climatic Background 127

Competing Hypotheses for the Origin of Homo sapiens 127

The Multi-regional Evolution Hypothesis 128

The Out of Africa Hypothesis 128

Other Hypotheses and Attempts at Consensus 129

● **KEY CONTROVERSY** *The Complex Fossil Record in Asia and Modern Human Emergence* 130

The Anatomy of Homo sapiens 131

Evolution in Low Latitudes: Evidence for the Rise of Modern Humans in Africa 132

Earliest Homo sapiens 132

Transitional Homo sapiens 134

Anatomically Modern Humans 137

Genetic Keys to the Origins of Modern Humans 137

Mitochondrial DNA and the Theory of an Early African “Coalescence” 138

Other Theories and Potential Consensus 139

Mitochondrial DNA and the Evolution of Homo neanderthalensis 140

Archaeology and the Emergence of “Modern” Behavior in Middle Stone Age Africa 140

Artifactual Evidence 141

Hunting and Dietary Evidence 141

Evidence of Site Modification and Art 142

● **KEY SITE** *Klasies River Mouth: Middle Stone Age Hunters?* 144

Evolution in High Latitudes: The Neanderthals 145

The Anatomy of Homo neanderthalensis 145

Exploitation of Resources: Hunting, Gathering, and Scavenging 146

● **KEY CONTROVERSY** *The Evolution of Language* 147

The Mousterian Lithic Industry 149

Neanderthal Behavior 151

Early Dispersals of Homo sapiens into the Levantine Corridor 151

The Colonization of East Asia and Australia 153

- **KEY CONTROVERSY** *Homo floresiensis*: A Small-bodied Hominin from Indonesia 154

The Colonization of Europe, and the Middle to Upper Paleolithic Transition 156

- The Aurignacian* 156
- “Transitional” Industries 157
- **KEY METHOD** Radiocarbon Dating 157
- Relations between Neanderthals and Incoming Homo sapiens?* 158

Developments in Modern Behavior:**The European Upper Paleolithic** 159

- The Gravettian* 159
- **KEY CONTROVERSY** The Initial Upper Paleolithic and the Emergence of Modern Behavior 160
- Gravettian Behavior* 160
- The Magdalenian* 161
- **KEY SITES** Four Sites with Upper Paleolithic Art 162
- **KEY CONTROVERSY** The Meaning of “Venus” Figurines 164

Late Pleistocene Dispersals: Colonization of the Americas 165
